Moving Tips

The final cost of your move will depend on these 5 variables:

- 1) How much you are moving (*volume and/or weight*)
- 2) How well prepared and packed up you are (*preparation*)
- 3) How far you are going (*distance*)
- 4) How easy it is to move into and out of your residences (*access*)
- 5) What Other services you require (*extra services*)

Only items 1 & 2 are within your Control

How to Save Money Moving Quick Tips

Be Fully Packed and Use Proper Supplies – Using proper cartons, packing paper and supplies makes your move a whole lot easier, faster, and less expensive!

We will move you by the box, or by the arm-full. Boxes are much faster!

Label Label Label - Label each box with the room name, and its basic contents

Think ahead – Know where you want your belongings to go in your new home.

Remember - You pay for our backs. Placement takes no extra time.

When in doubt – chuck it out! – Less stuff means less moving.

- Have a garage sale, give unwanted items to goodwill
- Have a purge party

Safety First - Move you treasured items and personal documents yourself. This will save you peace of mind.
